May 2020

USS *Liberty* Attack Anniversary

It is that time of the year again when patriots bring focus to a specific perfidious Jewish event: the anniversary of the June 8, 1967, deliberate attack on the USS *Liberty*. The enclosed informative National Alliance flier provides irrefutable facts about how 53 years ago America's "most loyal ally," Israel, deliberately attempted to sink and murder all American sailors aboard that American naval vessel. Carefully digest this trifold flier, then print copies and distribute widely in time for the anniversary of this unprovoked act of war that has been covered up by "our" government and the Jew-controlled media: natall.com/liberty

Put the text and the link all over the Internet wherever interested patriots congregate. Educate your neighbors with a letter to the editor of your local paper, or call in to a radio show, or bring it up in your social media.

Cosmotheist Books

Two more new books by Dr. Thomas Dalton have been added to our online bookstore this month: one the 2020 translation, with his foreword, of the classic 1938 illustrated German children's book, *The Poisonous Mushroom* by Ernst Heimer. "Jews were depicted as conniving, thieving, treacherous liars who would do anything for personal gain. 'Avoid Jews at all costs,' [read: racial distancing] was Hiemer's message." *Passovers of Blood*, written by the Italian Ariel Toaff in 2007 as *Pasque di Sangue*, is Dalton's other 2020 title, translated by Gian Marco Lucchesse and Pietro Gianetti with another fascinating foreword by Dr. Dalton. He writes: "The topic at hand is 'ritual murder' — that is, the Jewish killing of non-Jews, often youths, simply in order to use their blood in various bizarre religious ceremonies. For centuries, Jews have been accused of ritual murder; and for centuries, ritual murder has been dismissed as so much anti-Semitic clap-trap..." But wait, what we have in *Passovers of Blood* is "a well-researched and thoroughly-documented book that implicates Jews in the killing of Gentiles, especially children, and for reasons of religion..." Consider *Passovers of Blood* an enhanced, updated companion to *Blood Ritual* by Philip de Vier, the book Dr. William Pierce went out on a limb to publish before his death, available here: cosmotheistchurch.org/shop/

Cosmotheist Books has received a new supply of Dr. Thomas Dalton's edition of *On the Jews and Their Lies* that had sold out quickly. We've come into a limited supply of a pocket-sized edition of *The Jews and Their Lies* that we can offer for $5 plus $1 for postage and handling. Also added this month are H.G. Wells' unabridged science fiction novel

The Time Machine; *Early Irish Myths and Sagas* by Jeffrey Gantz, the pre-Christian account of the Iron Age Celts; *The Fateful Hoaxing of Margaret Mead: a Historical Analysis of Her Samoan Research* by Derek Freeman; the illustrated edition of the classic German WWII memoir, *The Forgotten Soldier*, by Guy Sajer; and George Orwell's must-read classic *1984*.

The Cosmotheist book store will announce in June the tenth volume in the *Power of Truth* CD series of Dr. William Pierce's talks and his *American Dissident Voices* broadcasts. This month the William Luther Pierce Memorial library received a 23-pound shipment of Dr. Revilo P. Oliver's pamphlets, papers, and periodicals that contain his work. This collection has been entrusted to us by an Oliver associate, knowing we already have many of Dr. Oliver's works and will take care of these and add to his separate section of the library.

"The Ghost of Lou Byers" Comments on *National Vanguard*

Someone with that interesting, history-referencing screen name commented recently on nationalvanguard.org:

> You said [quoting Kevin Strom on the 23 May *American Dissident Voices* broadcast]: "The much-ballyhooed 'alt right,' having no fundamental principles except perhaps a vague nationalism in which a racial tinge or fringe is tolerated, and a less-than-consistent dislike of a variously-defined 'modern world,' leaps from 'star personality' to 'star personality,' from monarchism to White-majority libertarianism to Pinochet nostalgia to 1940s-style (or sometimes 1840s-style) Catholicism, to 'national Bolshevism,' to whatever seems exciting this month. It, too, is based on ephemeral 'popularity' and is unsuited to our task."
>
> You can say that again.
>
> There's something seriously askew in the "alt-right." These people leap from one incompatible ideology to the other, sometimes with only weeks in between. Part of the reason, I think, is desperation on the part of people who see their race being killed and want a quick fix, now. If one fix doesn't work by next Thursday, they jump to the next.
>
> Another part of the equation is the relative youth of most of these people. Young people have an "undecided," try-this-today-try-that-tomorrow mentality and a lack of confidence in their own judgement. They need good leadership, one united front, to get them to put their shoulders to the Karmic Wheel.
>
> These qualities are exploited "to the max" (1) by money-driven self-promoters like the unspeakable [Mike] Cernovich and his many somewhat-more-radical imitators and (2) by Jewish groups and intelligence agencies (is there a difference?) with their boilerroomsful of fake accounts and new "leaders" made to order.
>
> The good news is that hundreds of thousands of those pro-White accounts are not fake. Our people are awakening. The truth is on the march.
>
> I say again: these people need good leadership. Hope they all find their way here.
>
> The National Alliance is the real deal, Jack.

It can't be emphasized enough that the National Alliance is not connected to the faddish "alt-right" whatsoever, other than that those who identify with the "alt-right" sometimes use material from the National Alliance and its founder William Pierce — without authorization or accreditation — to push their own agendas. Alliance members can learn about who Lou Byers was, here: http://whitebiocentrism.com/viewtopic.php?f=30&t=989&p=10684#p10684

Alliance Activism in Muscatine

National Alliance activists in the Quad-Cities area of Iowa and Illinois continue to set the example for the rest of us and are still managing to generate press coverage, even if that press is boilerplate nonsense from Jewish "hate" sources like the Anti-Defamation League and the Southern Poverty Law Center. The latest

is an 18 May article in a rag calling itself the *Muscatine Journal*. Muscatine, Iowa, is a nice little town of around 23,000 people, located on the Mississippi River. Despite being more than 90% White the headline in this issue of the *Journal* reads: "Anti-immigrant flyers distributed in Muscatine." The National Alliance is not "anti-immigrant." Legal, non-Jewish immigrants from Europe and other White nations should be welcomed. They can make White babies. The Alliance flier addresses non-White immigrants, who are mostly illegal, and none of whom can make White babies. Fact!

Anti-immigrant flyers distributed in Muscatine: There were very few words to describe the anger, the pain and the outrage Miyah Payne felt when she picked up the latest edition of a local monthly publication laying in her yard and found an adhesive-backed anti-immigration message included.

Last week, many residents found messages calling for the expulsion of immigrants because "they can't make white babies" included with the publication. The publication has no connection with the National Alliance, other than reporting on the group. The free publication was used to add enough weight for the single-page fliers to easily be tossed into people's yards.

"I saw the paper laying out in my yard passed [*sic*] the sidewalk like it was thrown from a vehicle," Miyah Payne said. "I looked around to see if anyone else had gotten one because I had never seen anything like it and I walked in my house and proceeded to read it I was enraged [*sic*]. I was literally shaking." Payne explained her husband is Hispanic and her two children are bi-racial. She said she has been happily married to her husband for almost 21 years. She also says most of her closest friends and family [in 90% White Muscatine] are Hispanic. A former daycare owner, she has cared for many Hispanic and black children as if they were her own.

Tip o' the hat to the *Muscatine Journal* for promoting National Alliance Web sites to its readers: This is the illustration they used in the article.

Upon contacting the publication, Payne learned the publication had nothing to do with the flyer and apparently someone had taken several copies of the publication and used it to distribute the flyers. The publication reports this is the fifth time someone associated with the National Alliance had used their monthly publication to distribute propaganda... "It's so easy to just be mean and hateful to people and judge without knowing," Payne said. "The real issue here is having a little bit of kindness. We're going through so much with this pandemic. Everybody is living through something no one has lived through before and then to bring this and throw it in random people's yards, instilling fear in some people?" ...Payne said she had naively thought this kind of thing didn't exist but then when she found the flyer she realized someone had gone out of their way to collect the papers, put stickers on them, roll them up and drive through a neighborhood distributing them. "This is not OK," Payne said. "This is 2020. If you want an all-white America you had better go and find a box somewhere and live in that because it's just not going to happen."

Whites in Muscatine won't be living in any box to separate themselves from the likes of Miyah and her facilitators. More and more of us understand that the most salient fact about the current genocidal invasion is that the invaders are incapable of producing White children. That's an incontrovertible biological reality.

Correspondence

Good Alliance people: Our April **BULLETIN** arrived yesterday. I really like the "Racial Distancing" sticker —thank you! $50 enclosed.

Please send me 30 of them or have Jim Mathias send them and use anything extra to provide some to others or use as needed. My intention is to put them up over 2-3 days at multiple locations during a period of low humidity before summer sets in. — *O.C., Louisiana*

Chairman Williams responds: Thank you, O.C. We've received a good response to our new sticker. The "lockdown" of Americans is slowly being lifted and by summer will probably be minimal except in the so-called epicenters (read: cities with lots of non-Whites and elderly folks who were forced-confined to so-called "assisted living facilities"). Facts about non-Whites being more susceptible to this particular virus strain than Whites is becoming common knowledge and the Alliance's call for increased racial distancing is making more sense to Whites as time goes on. Associating with "our own" is not "hate," it's common sense for good health.

Member Jim Mathias offers — as a service to all of us — some Alliance stickers for sale in his signature file at whitebiocentrism.com, our small forum — run by us, for us. Members are encouraged to register and participate there if not doing so already.

National Vanguard, our online magazine, should be members' default page that opens when their computers are turned on. A new feature there is "Today In History," that members are encouraged to assist with by sending relevant entries for important days of the calendar year in history, especially as these days approach in the current year.

Dear Chairman Williams, enclosed find three checks; one for $250 to pay ahead five months' dues; another for $200 for a mix of 500 tri-fold fliers (gun control and USS *Liberty*) and the rest for NA Health Warning #3 stickers. My area will get a good dosing of our "racial distancing" message. The third, for $200, is a donation courtesy of the federal government. If they're going to give away money, I'm going to make sure some of it makes its way into Alliance hands. It's almost like the feds donated it themselves. — *J.G., Maryland*

Dear Chairman Williams: You asked in the last couple of **BULLETIN**s to let the National Office how we have used our time during the pandemic lockdown. Being a lawyer I have been promoting the Alliance by contacting other members of the legal profession in Nevada, every day when possible. Usually, for example, I send a message with information connected to the Alliance like the *National Vanguard* article "Thoughts on the Coronavirus" by David Sims [Dr. Pierce's former editor], dated March 11, 2020. The printout shows our Life Rune symbol, Web address and the link to the article and some of the comments left by readers. The color sticker and flier that were enclosed in the April **BULLETIN** look like great materials and I'll be getting those out soon. The idea about distributing NA cards looks interesting... I must admit that in-person leafleting seems to me to be the most effective means to introduce people to what the Alliance has to say. Unfortunately, when I was living in Las Vegas many neighborhoods apparently have a higher percentage of non-Whites living in them, therefore it was not very useful to distribute in these areas.... Sincerely, — *T.A., Nevada*

Chairman Williams responds: T.A, you have distributed a lot of Alliance material in creative ways. For that you are thanked and urged to keep it up. The point you make about not distributing our material in neighborhoods with lots of non-Whites is worth emphasizing and sharing with other activists. The greater Las Vegas population that is nearly 2 million people now is no longer majority White. The National Alliance message is meant only for our own people, not to upset those who oppose us — though sometimes, as with the flier that landed in the hands of an hysterical anti-White in very White Muscatine, Iowa, that

one flier has a multiplier effect through local media coverage, even though that coverage is negative. The more perceptive Whites can read between the lines of these typical smears.

Chairman Will, thanks for sending the NA information. It is pretty slick looking material. This [enclosed] batch of [*WAR*, (White Aryan Resistance)] tabloids got a little wet during our rainy season here but they're still usable. I've got a few hundred more for anyone else who is interested. It looks like Mother Nature is going to assist us like in the old days with the plagues. The gene pool needs scrubbing. — *Tom Metzger, California*

Chairman Williams responds: The National Alliance thanks you, Mr. Metzger, for your contribution of more than 60 hard-hitting back issues of *WAR*, going back to the early 1990s. These will find a special place in our WLP Memorial Library, along with collections of the many other valuable print periodicals that have chronicled our struggle. Those who would take Tom up on his offer to send copies of WAR, write to him, including a few dollars. Thank him for his more than 40 years of courageous service to our race, and let him know that the National Alliance sent you: Tom Metzger, Box 1687, San Jacinto CA 92583.

Chairman Will, thank you for the warm welcome into the Alliance; I look forward to learning more and contributing to our cause however I can. As we discussed, censorship is in full force across the Internet and on the streets. Police enforce the notion that it is no longer even "OK to be White," and rights our forefathers tried to ensure for us are further nullified by the day. Whites are waking up to global Jewry in droves, which media bosses and government officials respond to by enacting more draconian measures of control that expose themselves, accelerating an unsustainable cycle. For all the power they currently have, it is surprising how desperate and fear-based Jewish decisions are. Perhaps insecurity is simply in their nature.

A channel on Bitchute would be very helpful as a place to direct our people. In my opinion, video is by far the most effective propaganda medium and that goes double for our youth, who are watching something 24/7. A lot of Whites are on the verge of awakening, or have awakened but still drift aimlessly, looking for answers. They are looking for community and purpose as their society becomes more decadent and hostile toward them. It seems clear to me that the National Alliance is the answer for their community, and Cosmotheism is the answer for their purpose; the ones capable of understanding merely need to be shown that there is hope and meaning for them.... I eagerly await the May **BULLETIN**. All my best, — *B.C., Tennessee*

Chairman Williams responds: B.C., since we talked member Donald MacMullen has taken on the task of registering and maintaining our National Alliance Bitchute video channel, linked here: bitchute.com/channel/Lfluu5Az8RO5/

It will take a while to get things up to speed with quality content that meets Alliance standards, but our members and others can go ahead and subscribe. Several hundred of the oft-banned videos from our former YouTube channels were archived and we'll add our Web addresses to them so viewers will be steered to our sites when viewing our videos. Jew-owned YouTube (Google) censored us, and Jew-owned Instagram (Zuckerberg/Facebook) "zucked" (read: banned) the Alliance account Donny had set up earlier this month, but not before he had managed to gain more than 350 followers. He has set up another Instagram account at <na_national_alliance>. No doubt that new Instagram account will be zucked also, but, again, not before many other people are made aware of our Alliance. Bitchute's owners, unlike the openly censorious Jews at YouTube, supposedly respect free

speech. We'll see. As Donny puts it: "The Jews will try their best to censor us, but those who seek the truth will be able to find us, whether on the Internet or on the street. We will keep our torch of truth lit so those who are stumbling towards the light can see us." Bravo, Mr. MacMullen!

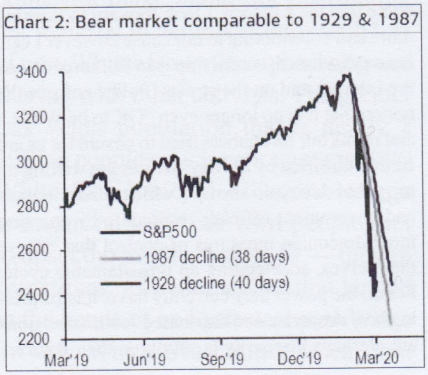
Commentary by Chairman William White Williams

Recent "Panics" in Perspective

The recent China virus has dominated and devastated the lives of many Americans like nothing in recent memory. We hope Alliance members and supporters have managed to dodge the virus bullet and avoid being caught up in the mass unemployment and economic destruction. It appears now that more Americans may die from the wrong-headed government efforts to fight the virus than from the virus itself. Common sense prevails in avoiding exposing oneself or one's loved ones, especially the more vulnerable elderly, to this or any other communicable disease.

As for the economic impact of the virus scare, one sign is the resulting precipitous drop in Wall Street's Dow Jones Industrial Average ("the Dow"), an index of 30 of the largest US companies. On February 12, the Dow reached its all-time high of 29,551.42. On 9 March the 2020 "crash" began with a one-day drop of more than 2,000 points. By 20 March, and two more record one-day drops, the Dow reached a low of 19,173.98. Panic set in as comparisons were being made to the great Wall Street crash of 1929 and to "Black Monday" of October, 1987, the other historic big drop in the Dow. Few who are reading this **BULLETIN** were around to experience the 1929 crash, but many will remember Black Monday, 19 October, 1987. I do.

A former Alliance member, Gary Gallo, had left us in the early 1980s to launch his own organization, the National Democratic Front (NDF). (Don't be fooled by the word "democratic." He had toured Europe, meeting with leaders of nationalist groups there who felt they had to use that word in their groups' titles.) Gary was a impressive leader, a graduate of both West Point and Georgetown Law school (and later, a Tennessee medical school). I was unaware of the Alliance in 1986 when Gary invited me and my friend Gordon Ipock to be co-directors of his NDF. When I saw the graph below a few days ago, comparing the near-vertical drop of the 2020 stock market crash with the crashes of '29 and '87, it reminded me of the political cartoon (see next page) Gary had asked me to draw for the November issue of the NDF publication.



This graph puts the 2020 crash in its historic context: It crashed faster than both the Great Depression and Black Monday. In terms of the total draw down, the crash of 2020 (left line) was steeper than 1929 (right) and 1987 (center).

As this issue of the **BULLETIN** goes to press near the end of May, the Dow Jones is rallying. The point being: The rises and the falls in the Dow are cyclic, just as happened after the 1929 and the 1987 crashes. The health panic is also subsiding now — epidemics and pandemics are cyclic also. Things are beginning to return to what many hope will be "normal." Of course things will not be normal. Americans have been conditioned to a taste of near martial law to "protect" them. Many have gone along with government mandates under of penalty of prosecution if they don't "shelter in place," if they venture out from their homes without wearing gloves and masks, or fail to stay six feet apart.

The Nationalist

VOICE OF THE NATIONAL DEMOCRATIC FRONT

Vol. 3, No. 11 November 1987 50¢

"Truth is the most powerful propaganda." – J.F.C. Fuller

Black October Shakes World Economy

Like a rubber band that had been stretched out of shape, the stock market snapped back into reality on October 19, 1987. The Dow Jones Industrial average dropped an incredible 508 points in one day as traders panicked on the New York exchange, and the shockwaves reverberated around the world as the Tokyo and London exchanges followed with record breaking losses. The panic on Wall Street had been preceded by a week in which the Dow Jones had lost 235 points. In fact, between August 1st and October 19th the market lost close to 1000 points or 30% of its value.

What caused the bursting of the bubble of illusion that had been the stock market ever upward over the last five years? No one knows. But eventually the psychology of the market had to come into line with economic reality. The economic facts to which we have pointed over the past two years indicate that the U.S. economy was and is fundamentally unsound and unhealthy.

In The Nationalist we pointed to the major weaknesses in the economic structure which seemed not to concern the stock market.

Dec85 We explained that massive subsidies to huge agribusiness corporations were sitting the small farmers that small banks, particularly S&Ls and farm banks, were collapsing at unprecedented rates while big banks were on flush with foreign money that they sent loan salesmen all over the ineptly managed Third World to find countries willing to borrow at high interest rates.

See Page 2

Others of us have not gone along to get along. It's edifying to see the rebelliousness among our people, withdrawing their consent to be governed by fools.

Tennessee Update

I've never been much of a gambler except on sure things; I've never purchased a lottery ticket, nor invested in the stock market — seeing it as not much different than gambling in Las Vegas. If there is one thing I've frequently invested in, though, it's land — because, as a wise man once told me: "They're not making any more of it." Land in a good area nearly always appreciates in value, especially when quality improvements are made to and around it. In 1993, after two years working on staff with Dr. Pierce in West Virginia, I wanted to come back to Johnson County, Tennessee. I found and purchased a 16x20 one-room cabin in Laurel Bloomery, in Johnson County, on a 1.67-acre lot, for $14,500, which was all I could afford at the time. I started improving and adding on to the cabin, doing nearly all of the work myself and with friends. Then I purchased a little over six more acres adjoining my lot, with a hunting cabin on it. I sold that cabin to an Alliance member, along with 2/3 of an acre. That allowed me to pay for most of the rest of the adjacent adjoining acreage. His cabin had no electricity or plumbing, so, having been a builder in my former life, I helped him add value to it by putting in a septic system, water and plumbing, electrifying it, and making general site improvements. Other improvements including two nice additions were added to the cabin since then. After the National Alliance purchased 50 acres

nearby in 2018, I bought this cabin back from my friend, trading him a couple of other acres I owned in the bargain, which made the cabin affordable for me.

That cabin will now house National Office staff members, and is just a couple of stone-throws from our Alliance acreage. Now that we have moved our nice Ford tractor and attachments (loader, backhoe, bush-hog and scraper blade) from to Tennessee we are geared up to make improvements in preparation for building the Pierce Memorial Library and a couple of other planned buildings. I'm negotiating with neighbors to improve the Alliance's property. All we need now are a few hundred more dues-paying members and supporters, or a few large donations. During April, long-time South Carolina member W.H. donated $1,000 above his monthly $20 per month pledge, helping with a couple of ongoing projects. That's the equivalent to 50 members' minimum monthly pledges! Pledges toward our work are tax deductible if made to the Cosmotheist Community Church or the Cosmotheist Alliance Church.

Cosmotheist Resolution for "Vaccine Refusers"

On 18 May *National Vanguard* published "Gates Foundation Honoree: 'Get Rid of All the Whites' to Increase Vaccination Rates." To summarize:

> Dr. Carol Baker of Houston is caught on video proposing that society "get rid of all the Whites in the United States to reduce the number of vaccine refusers." Baker is a staunch proponent of forced vaccinations, having served as chair of the Advisory Committee on Immunization Practices Centers for Disease Control and Prevention (CDC) in 2009, in the Obama administration. She stayed on with that committee to as recently as 2019. Baker has recently served as the executive director of the Center for Vaccine Awareness and Research at Texas Children's Hospital. She was honored in Washington, D.C. with the Sabin Vaccine Institute's 2019 Albert B. Sabin Gold Medal at a ceremony made possible in part by the Bill and Melinda Gates Foundation and Pfizer.

Imagine that: Baker openly advocates ethnic cleansing of Whites because quite a few of us resist or refuse forced vaccinations. "We'll just get rid of all the Whites," she says. "It is immigrants who want to be vaccinated."

On 24 May, the former Secretary of Homeland Security, the ultra-Zionist Jew Michael Chertoff, glibly remarked that all public schools in the US should remain closed until a vaccine exists and students are injected with it. Should Aryans expect anything less from this son of a rabbi, whose wife has held high positions in the anti-White ADL?

The board of directors of the Cosmotheist Alliance Church (CAC) has, on 26 May, 2020, passed a resolution declaring that its faithful followers may resist forced vaccinations, if they so choose, and refuse altogether to have anything to do with this despicable plot by the federal government, Bill and Melinda Gates, Pfizer and other big pharma companies, and the Sabin Vaccine Institute, etc. This refusal will be backed by the Cosmotheist Church and by the National Alliance. Who are they to question our faith? Expect more resolutions by the CAC that are in line with our Nature-based world view. These resolutions are likely to appeal to our kinsmen who have had a bellyful of their increasingly oppressive government — and their current anti-White churches. **W. W. W.**
